## Vet Families Move In Ten Students Inhabit First Units Of Emergency Housing Project

Ten San Jose State college veterans and their families moved into Spartan City Saturday upon completion of the first unit of the emergency housing program for student veterans.

It is hoped that another unit consisting of ten apartments will be finished Wednesday, and an additional unit every 10 days until the entire project of 148 apartments is completed.

## DR. DOWNEY HEADS MUSIC

Dr. Lyle Downey, formerly from Kansas State college, has been appointed as head of the San Jose State college music department replacing Mr. Adolph W. Otterstein, who left for the armed services in 1942.

Dr. Downey was born in Denver, Colorado, went to high school in Illinois and Indiana, and attended engineering school at the University of Illinois. Dr. Downey received his A. B. degree in mathematics at James Millikin university at Decatur, Illinois, and got two degrees in music at the American Conservatory in Chicago. He received his master's degree in English and psychology at Kansas State college, and his Ph. D. in music and fine arts at the University of Iowa.

Dr. Downey was a member of the Chicago Civic Orchestra for three-and-a-half years, and for one year was the director of musical programs at radio station WGES in Chicago. During the war the new music department head taught mat and physics to Air Corps students at Kansas.

The 10 students who moved into their new homes Saturday either have children or are expecting them in the near future. Some of the couples have been separated because of the housing shortage, while others have been living in places ranging from motor courts to barns.

Those students whose families had top priorities are Gilbert Hubbard, Bill Parton, Jay Parker, John Pope, Denny Morrissey, Michael Brusin, Richard Buell, Martin Peck, Ray Miller, and Tudor Borgart.

Harry Brakebill, assistant controller of San Jose State college is in charge of the project.

## World Series To Be Broadcast

Baseball fans will have a ring-side seat for the second game of the World Series today when the annual Spartan Daily relay broadcast is presented directly from Sportsman's Park in St. Louis.

There won't be any peanuts or hot dogs on sale, but the radio is here for everyone, and the seating capacity on the San Carlos turf is unlimited. Game time is 11:30.

## POST-GRADUATES NUMBER 44

A total of 44 students have enrolled for study toward general secondary teaching credential. This exceeds the number anticipated, according to Dr. James DeVoss, in charge of the new post-graduate program.

San Jose State college received approval for granting the general secondary credential July 15 when the college application was passed by the State Board of Education. The Board also granted permission to give the special secondary credential in speech correction.

Teachers or students desiring to apply for the general secondary must hold an AB degree from an accredited institution, and make application for graduate standing with Mrs. Ada Carver, secretary of the Committee on General Secondary. Undergraduate students in residence at San Jose State college may apply for admission to secondary teacher training any time after the second quarter of their junior year.

Undergraduate candidates for the secondary credential must have (Continued on Page 4)

## Council Makes Appointments

Two appointments were made at last Wednesday's council meeting. Phyl Clayton, senior art major, is the new La Torre editor, and Mary Lou Allen is the Chief Justice of the Student Court.

La Torre representatives also asked for council consideration of the rising cost of printing on the price of publishing the yearbook. A committee of council members, including the treasurer, will meet with Mr. Dwight Bentel, head of the journalism department, to determine what action should be taken.

A committee was also appointed to investigate the advantages of students being allowed to smoke upstairs in the Student Union. The suggestion was made as a means of lessening the crowded conditions in the fountain side of the Spartan Shop.

These discussions will be continued at the meeting this afternoon of the Council. All students are invited to be in the Student Union at 5:30.

## NEW DOCTOR. NURSES ADDED

Dr. R. H. Somers, graduate in medicine from Northwestern university, has been added to the physician's staff in the college Health department, according to announcement made by Miss Margaret Twombly, department head.

Previous to joining the staff, Dr. Somers was a practicing physician in Seattle, Washington. He has purchased a home in San Jose and is now residing here with his wife and three sons.

Two new public health nurses, Miss Elsie Hoeck and Miss Jean Learmonth, have been named to the Health office staff. Miss Hoeck has been doing public health work in Santa Barbara county, and will perform both teaching and clinical duties. She received her degree from the University of California, and her public health certificate from the University of California. (Continued on Page 2)

## DOC MOBLEY GALLOPS TO GIVE COWBOYS WIN

Despite a half-time bracer of California orange juice and honey the San Jose State Spartans lost a 34 to 7 decision to the Hardin-Simmons Cowboys Saturday night in Abilene, Texas.

Playing heads-up football all the way, the Cowboys, lead by their 1942 little All-American half-back, Doc Mobley, cashed in on every break to run wild against the Spartan varsity.

### SPARTANS THREATEN

San Jose opened the first quarter with a sustained drive to the Hardin-Simmons 11-yard line before losing the ball. Soon after the start of the second period the Spartan pass attack backfired when the Cowboys intercepted three tosses and converted them directly into scores. The half-time score favored the Cowboys 20-0.

### NEW SECTIONS

Two new sections of pre-engineering drawing have been opened. One at 12:30-1:30 daily, 2 units, Mr. Casey, Instructor; and one 1:30-2:30, daily, 2 units, Mr. Stevenson, Instructor. All students wishing to enroll in these courses report to room H-25 at class time Monday.

Students desiring special help with speech and voice problems should enroll at the clinic before October 9.

## Phil Ginn, Cranor Named Associates

Phil Ginn, Hayward, and Walt Cranor, Menlo Park, were appointed associate editors of the Spartan Daily by Bonnie Gartschore, editor. This is the first time in recent years that two associate editors have been appointed to assist the editor. As senior journalism majors, Miss Ginn has been a member of the Daily staff for the past two years while Cranor has been a staff member for the past two quarters.

Willettta Sullivan, a senior journalism student from Springfield, Massachusetts, will assume the position of copy editor. Sports editor will be Dick Fry, senior journalism student from Oroville. Filling the position as wire editor is Marie Somky; in charge of the feature page will be Wally Trabing.

The positions as day editors are filled by Phil Robertson, Walt Cranor, Phil Ginn, Jackie Rice and Dean Thompson.

## Chest Drive Set

The forthcoming campus Community Chest drive will begin October 14 and extend through October 18, according to chairman, Bruce McNeill.

McNeill's committee includes Harold Riddle, publicity chairman, and ten committee heads: Claire Canevari, Dick Bartels, Pat Walsh, Jan Haggerty, Pete Hearn, Dick Mansfield, Joyce Woods, Virginia Mahon, Dadie McNeil, Leah Keller.

SCA members appeared in the Community Chest parade Friday night in Bruce McNeill's model "A" Ford. The campus Christian organization is sponsored by the Community Chest.

### WANT TO RIDE ?

Beginning this morning the Pacific Greyhound Company will maintain special bus service from Redwood City and Palo Alto direct to the campus.

Buses will leave Redwood City at 6:25 a. m.; and Palo Alto at 6:40 a. m. They will make all stops between those cities and San Jose, and will arrive at the campus at 7:20 a. m.

Students may purchase one-way, round trip, or commute tickets at the Pacific Greyhound depots at any point between Redwood City and San Jose

### TALK BRINGS SCORE

Coach Bill Hubbard's talk and the orange juice and honey diet during the intermission gave the locals incentive enough for one touchdown in the opening minutes of the third period, but they couldn't catch the Cowboys. The Spartans marched 52 yards shortly after half-time for their lone tally. Quarterback Jim Jackson set up the score with a pass to George Terry and then lateraled to Babe Nomura who outran the Cowboy left end to give the Spartans six. Bill Perry booted the extra point.

### MOBLEY RUNS WILD

Mobley put the game on ice for the boys from the Lone Star state in the fourth quarter, counting twice in rapid succession. The Cowboys picked up a Spartan fumble on the San Jose 10 and two plays later Mobley made it 27-7 blasting his way through the Golden Raider line. Reserve guard Jessie Clardy grabbed one of Chuck Hughes' heaves to put the Texans on the touchdown road again in the fourth period. Mobley needed just two tries to rack up the final Cowboy score.

## 3 Leads Chosen For First Play

The three female leads for the Drama department's forthcoming production "The Dutchess of Malfi" were chosen at tryouts held Friday. Ruth Jensky, one of last spring's "queen candidates," will play the title role. Patricia Kimmick is cast as Carriola and Edna Wheeler will play the part of Julia.

Miss Kimmick is a senior drama major who has transferred here this year from University of Oregon. While a student there she acted in "Dear Brutus" and "Having a Wonderful Time."

Miss Jensky in the role of the dutchess will portray a woman who marries for love in spite of the objections of her family. Carriola is her companion who because of her loyalty is drawn into the tragedy. Julia, a very low creature, is the mistress of the dutchess' brother, the Cardinal.

Male lead parts will be chosen in the early rehearsals which begin today. Contestants for the parts are Del Carlson, David Manning, Edwin Williams, John Ickes, John Calderwood, and Milton Brietzke.

Calderwood is familiar to San Jose audiences having appeared in many productions during the past two years. Williams was a member of the cast of "Double Doors" produced during the summer. Carlson was a student here in '42 and '43 when he played in "Arsenic and Old Lace" and "The Male Animal."

## WORLD NEWS IN BRIEF

A Summary of World News Taken from the Wire of the United Press Up to 11 o'clock Last Night.

### Hurricane Threat In South Florida

MIAMI, FLA.—All disaster and rescue units were mobilized in the Keys and South Florida last night as a growing hurricane carrying air blasts up to 100 miles an hour whirled toward the western Florida coast from the lower Gulf of Mexico.

Weather bureau warned that all emergency precautions should be taken immediately to protect "life and property" while trucks were readied in Homestead, south of Miami, to begin evacuation of residents of the low-lying Keys, where 300 government workers were killed in a 1935 hurricane.

### Great Britain Given A-Bombs

WASHINGTON—Radio commentator Drew Pearson said last night that the United States has given Great Britain "A supply of Atom bombs to store up in northern England."

In his regular weekly broadcast, Pearson said it was the first time England has had any A-bombs "Even though she was a partner in making them."

### Machine Gun Fire In Jerusalem

JERUSALEM, PALESTINE—An RAF non-commissioned officer was killed last night and another wounded when machine gun fire from a black sedan sprayed a British Billet in downtown Jerusalem. While British soldiers and police searched the city's Jewish community and arrested several suspects, young Jews set up tents and prefabricated huts in 11 separate "colonies" at Negev and surrounded them with barbed wire.

The "colonizers" believed to be armed, consolidated their positions before dawn. It was not immediately known whether the British planned action against them.

### Communist Guerillas Derail Train

PEIPING, CHINA—A Chinese Nationalist armored railway car was derailed by exploding mines Saturday 30 miles southwest of the U. S. Marine base at Chin Wang Tao.

The car, operating along the Peiping-Mudken railway on an inspection trip, ran over mines which had been buried beneath the tracks. Press reports indicated that Communist guerrillas, who have been active in the area during the past week, mined the rails under cover of darkness.

## WARNING TO CAR OWNERS

Rules are made with a purpose in mind. Rules are made to be followed. There is a rule about parking which is being violated every day.

NO CARS MAY BE PARKED IN THE SPACE BEHIND THE STUDENT UNION.

We realize that the increased student body has resulted in a serious parking problem. The council is planning several measures which will help alleviate the congestion. But the space behind the Student Union is for delivery stops only.

Students found parking in that area will be brought before the Student Court. Probably the reason for recent violations was ignorance. This excuse will no longer be accepted.

Violation of this rule is also violation of a city ordinance. Therefore, there are two reasons why students should not park in that area.

This is a warning—the next step will be action.

## AID TO CONGESTION

Discussion at last Wednesday's Student Council meeting brought forth two methods to help alleviate the congestion in the Coop.

1—Moving the mail-boxes upstairs.

2—Smoking to be allowed upstairs.

Moving the student mail-boxes would provide a little more standing room downstairs. Allowing students to smoke upstairs would provide more counter space at the fountain where now it is almost a "fight to the finish" to get a stool.

As it stands now, during the day the Student Union is little used by anyone. On rainy days when there is no place to smoke, except in the Coop, it would be a convenience if smoking were allowed upstairs.

As an aid to relieving crowded conditions, the Student Union should fulfill its primary purpose—a place for students to relax.

## REFLECTION, DEJECTION

By BOB PEARSON

The last time I attended this college, things were different. Fewer students, fewer classes, fewer problems made the former campus life idyllic.

Now I stand in line to get in class, stand in line to eat in the coop, and I even stand in line to—well, I stand in line a heck of a lot.

Rooms and apartments were easy to get. Landladies would beg us to live at their houses: board and room with breakfast in bed, clean sheets twice a day, and no interference with loud and hilarious goings-on after 12. Some of the ladies went so far as to give us a case of beer as bonus for letting our rent drop in arrears only three months.

There have been some changes.

I now live in a neat little reinforced packing case with a waste basket for a closet. I am luckier than most of the students as my rent is fairly low—only \$55 a month if I go home to Seattle on week ends.

I have yet to eat this week as I have been standing in line in the coop since registration. It won't be long now, though. The girl on the stool is about to run out of breath.

I tried to register for the classes I needed to graduate. I stood in the English line for an hour waiting to enroll in Comp la. When I reached the prof, I had a choice of taking English 798, "An Outline of the Affairs of Chaucer," or "The Influence of D. H. Lawrence on Esquire." I took an aspirin.

I went to the Reg dance to have a good time and forget it all. Har! As soon as I started dancing with my girl friend some-

body grabbed her away from me and it took me two hours to get off the floor. Later I found I was extremely fortunate. When the dance was over, the mangled remains of an estimated 40 students were found strewn about the gym.

I'm so lonesome for the good old days. Things are sure different.

## The Clockwatcher

With CHARLES L. ANDERSON

"Noon should be a pleasant time." That is what they tell us.

But prices charged are just a crime, And fie upon the food they sell us!

Big crowds are ever in the Coop, And the noise is getting louder. Is all this misery worth-while For a bowl of chowder?

"Grease joints" in S. J. abound;

You can see them all around;

And so the problem is, I gueth:\*

"To go hungry during noon, or meet a hero's death."

## Social Affairs To Hold Meeting Today

A special request for freshmen and men students to attend the first meeting of the Social Affairs Committee in the Student Union at 4:30 today was made by Pat O'Brien committee chairman.

"We would like to have as many new students on the committee as possible," said Miss O'Brien, "but members who have worked with us last year are also needed." Members will be chosen from those attending the first two meetings.

## Rally Committee To Meet Today

"Rally Committee this year will be small," announces Bob Johnson, committee chairman. "We are going to have a group which will work together and organize bigger rallies and better rooting sections than have ever been seen at San Jose State College."

First rally planned for this quarter will be held Thursday at 12:30 in the outer quad in preparation for the game that night with the Honolulu All-Stars.

Anyone interested in assisting the Rally Committee may attend its first meeting today at 12 o'clock in the Student Union.

A big attendance is expected at both games and the rallies. "But don't forget," warns Johnson, "no one will be allowed in the rooting section at the game unless he is wearing a white shirt or blouse."

The meeting today will be held from 12 to 1, so that students having 11:30 classes may attend.

## New Nurses

(Continued from Page 1)

lic health nursing certificate from Western Reserve university in Cleveland. She served in the Army Nurse corps during the war.

Miss Learsmonth is a former San Jose State college student, and is a graduate of the Santa Clara County Hospital School of Nursing.

Added to the teaching staff in the Health department is Mrs. Jean Lees who has been principal of a normal school in the Philippine Islands. She received her bachelor of science degree from the University of Illinois, and her master of public health degree from the University of California. Mrs. Lees is living in San Jose with her son.

\*Sure, that's baby talk, but what else rhymes with "death?"

Our spys report a literature course that opened on a note of confusion. Ten minutes after the final bell, Dr. Barry peeked through the doorway and nervously inquired, "Is this my class?"

OVERHEARD: "I'll be glad to do my chem with you tonight—one-and-a-half heads are better than one!"

## GABBING WITH THE GREEKS

By HURMUSES

With the prospect of a big year on Washington Square, fraternities and sororities have jumped with the gun, and started the social swing.

First on the list to show Staters a good time was Beta Chi's "Beta Cuddle" last Friday night. From all advance indications, there was a full crowd and a good time for everybody, including the chaperones.

Wednesday night saw the organizations meeting for the first time this quarter, and a happy sweet tooth for a lot of the coeds. The Deltas were treated to candy from Peggy Cooper and Carol Taylor . . . betrothed to Francis Smith and Pete Pavilina, respectively. Cecile Monahan took over the presidency of the group from outgoing prexy, the former Gerry Sherry, who, incidentally announced her marriage to Larry Cordeiro, local Shell Oil tycoon. On the schedule of activities for Delta Beta Sigma is the sale of pom-poms for all the football games. Good idea.

APQ's Jim Dailey and Sappho's Bev Davis synchronized their clocks and made joint engagement announcements to their fellow members Wednesday night. Bev gave

the girls a big box of candy, and Dailey passed around a pack of Luckies.

There are enough DSG's wives now to start a good sized pinochle club. Among the couples who tied the knot were: Stan Black and Johanna Barmettler, Jack Campbell and Gerry Friend, Doug Bacon and Elaine Chadbourne, Bob Pearson and Barbara Robberson.

Congratulations also go out to a pair of Allenians, Mary Bean and Sidney Smith, who tripped to the altar not so long ago. Mary married Bob Sullivan, Gamma Phi and former Air Forces navigator, while Bert Robinson, star back and basketball player for alma mammy, is now calling the plays for the little wife, Sid.

Now for you men.

The date for the Inter-Fraternity beer bust hasn't been announced as yet, but keep posted.

Alpha Phi Omega, national service fraternity, did a fine job on the indexex for the students this year. We understand all proceeds are for the Memorial Chapel to be built in the future. Good stuff.

That's all the word for now. See you next time.

## Library Exhibits Lum Collection

Chinese embroidery, tapestries, and art objects from the collection of the late Miss Maryette Lum are being displayed in the present library exhibit.

Miss Lum, sister of Mrs. Mabel Fitzhugh of the health department, collected the various objects while serving as a missionary in China.

The cases in the library entry are devoted to tapestries and carved wood articles including a Buddhist prayer wheel, and a wooden button covered with a dragon design.

Pipe smokers would probably enjoy the brass water pipe which has three bowls or cylinders: one for storing tobacco, one for burning tobacco, and one for water to "purify the smoke."

The process of ink rubbing is explained with examples to show

## CCF MEETS TODAY

The second Collegiate Christian Fellowship meeting of the fall quarter will be held today from 12:30 to 1:20 in room 21.

Doug Neff, former Spartan, will lead the group in a Bible discussion. Neff graduated from San Jose State college last year with an A. B. in Philosophy and Psychology. He will be in charge of the meetings for the next five Mondays, according to Dave Fraley, CCF president.

how the Chinese make perfect, lasting impressions of inscriptions on rice paper.

The exhibit continues on the Library landing where string, wood and percussion instruments may be found along with small theater bells and cup-shaped cymbals.

The education reading room has books about China on display which may be read in connection with the exhibit. Featured is a song book written by Miss Lum.

## CREDENTIAL REQUIREMENTS

(Continued from Page 1)

a 1.5 average in all work undertaken in the major field and a 1.25 in the minors. If two minors are chosen with a major in education, a 1.5 must be maintained in both minors. Upper division students must have a grade point average of 1.5 in all work undertaken, and in the graduate year a 1.75 grade point average must be held in all work in the major and in professional courses.

Forty-five units in residence for graduate students is necessary after the candidate has been accepted for graduate standing. Also, a teaching major and a teaching minor in subjects ordinarily taught in secondary schools must be established. One must be in an academic field, and at least nine quarter units in each of three fields—humanities, social science, and natural science—must be completed in addition to the lower division nucleus requirement.

## ANNOUNCEMENTS

**FORMER MARINES:** Both men and women are cordially invited to attend a business meeting of the Marine Corps League in Brown's Hall next Friday. Next to Willow Glenn Theatre on Lincoln Ave.

**ALL PERSONS LIVING IN PALO ALTO** and intending to commute are urged to call either by phone or in person at the Pacific Greyhound Bus Dept and request an additional section of busses to leave Palo Alto at 6:40 a. m. and come directly to the school in time for 7:30 classes. This is under consideration by the bus line officials now, and all that is required is enough calls and requests for such service to be put into effect.
